"This forum will be an excellent opportunity to touch base with the network simulation and modelling community here in Australia and to share experiences and best practice."

Ben O'Loughlin, Managing Director, Tenfold Network Solutions.

"The OPNET User Forums in the US and UK have enabled us to brief clients on roadmap enhancements and to get support on improving the solutions. We greatly value the User Groups and look forward to supporting our Australasian Customers in these endeavours."

Tim Jones, Director of International Defence and UK Government Solutions, OPNET Technologies, Inc.
